

My name is Cliff Williams. I am the President of the Hayward Community Credit Union in Hayward, Wisconsin.

Based Upon information sent to us by the Wisconsin Credit Union League, we understand that at least one bank coalition is trying to weaken Wisconsin's no call restrictions.

Please know that I am personally strongly in favor of a very restrictive no call list, and the credit unions of Wisconsin want our members protected from the interruptions and potential hassles of dealing with telemarketers. If our members need to be informed about products and services that we have available to offer, there are many methods of delivery which will not involve calling them during their private time at home.

Please make every effort to keep Wisconsin's residents protected from unwanted interruptions and intrusions.
